ACCELERATE YOUR TRUCK'S SERVICING TIME WITH

Accelerated Service Express Diagnostics in Texas

Does your service provider take forever to return your vehicle? If yes, then it is time to switch to Accelerated Service Express Diagnostics by Kyrish Truck Centers in Texas.

How Accelerated Service Can Help?

Accelerated Service is an advanced diagnosis and communication process that helps improve customer demands for uptime, thereby offering service efficiency.

The process involves thoughtfully designed steps and key elements that add to the speed of the process.

WRITE-UP

We ensure to complete a write-up within 15 minutes of vehicle arrival to alert Navistar and kick off its support activities.

EVALUATION

Our diagnostic technician evaluates the vehicle within 2 hours of arrival, which includes determining whether the vehicle is in need of a quick repair or an extended repair time.

PARTS AVAILABILITY

The diagnostic technician also determines the requirement and availability of parts to facilitate a speedy and efficient repair process.

COMMUNICATION

Post evaluation, we update the customer within a 2-hour window, thus allowing the customer to make business decisions depending on expected vehicle downtime.

CONFIRMATION

All Kyrish Truck Centers are constantly monitored by International Trucks to ensure that uptime promises are met.

Perks of becoming an accelerated service customer at Kyrish Truck Centers.
